A new paper will be started at Regina, the first issue of which will appear about April 6th. It will be called "The West" and will be the exponent of conservatism in the Territories. It is understood that the plant has been secured. Mr. Fraser, formerly connected with the Videtta, will be the manager.

SOME of the new settlers who arrived last week were: P. Sunberg and Peter Torr, Mrs. Roberts and children, from Minnesota; E. Gowan, from North Dakota; D. Sieffler, Fred Wiley, E. Sieffler, Wm. Field, M. Hanlan and family, Mrs. Mohr and three adult sons, Ontario; Wm. Woods and family, five souls, from California.

T. T. BROWN, of the Sturgeon settlement, is selling off his stock, farm implements and household effects by public auction on Tuesday, April 4th, preparatory to removing to Manitoba. Mr. Brown has been in poor health and in the drier climate of Manitoba he hopes to find relief. He will leave overland sometime in April and will drive through the Swan Hill and Dauphin districts of Manitoba.

The annual report of the Indian department for 1898 has been printed and ready for distribution. The Indian population throughout the Dominion, as shown by the statistics, which are at any rate closely approximate and as accurate as the circumstances of the case will admit of, reached an aggregate of 100,093 souls in 1897-8, as against 99,364 for the preceding year, thus giving an increase of 729. The increases were as follows: Ontario, 410; Quebec, 55; Nova Scotia, 137; Prince Edward Island, 11; British Columbia, 27; and Manitoba, 175; making 815, but there were decreases of 31 in new Brunswick and 56 in the Northwest Territories, which leaves a net increase of 729.

THE TEST OF TIME PROVES WHAT WE SAY

For 20 years we have been in the Furniture business in this country and during that time we have furnished thousands of homes. We have seen our largest and best furniture factories in Canada to-day grow up from their infancy. We visit them periodically and keep ourselves posted with their doings and output. In a word we know the furniture business. We occupy 9350 square feet of floor space, and have it filled to the doors.

We have just unloaded a car of Bedroom Suites of common and medium grades. Bought at the closest prices, for spot cash, in the slack months of winter.

That means that we can give you a MAPLE SUITE, antique finish, Bed 4ft 2 inches wide, Bevel German Plate 14 x 24, for $15.00. We have the best range of Parlor Suites ever offered at the price.

A WORD ABOUT REPAIRS. . .

There is no article that is so closely associated with us as a Watch. It regulates all our business and is either of the greatest value or of no value whatever. A watch must either be repaired properly or ruined, and hundreds of fine Watches have been utterly ruined by being practised upon by unskilled workmen and apprentices. Having been at the Jewellry and Watch Repairing bench for the past 19 years in the most reliable shops in some of the largest cities of EUROPE, UNITED STATES and CANADA, from which I have received diplomas and excellent references for my skilled mechanical work, which proves that I am sufficiently master of my trade, I make this class of work a distinct feature and give it my most scrupulous attention. All work entrusted to my care will be repaired expeditiously and in a surperior manner, accompanied with a guarantee for twelve months. I shall do my utmost to gain the confidence of all who favor me with their patronage. One trial will prove.

Hoping to have a call from you, I remain.

EDMONTON BULLETIN, MARCH 27TH, 1899.

SESSION NOTES.

OTTAWA, March 19, '99.

At such an early date in the session and while the house is adjourned notes of interest are scarce. A majority of the members went home for the adjournment—as usual. The heavy fall of snow which occurred on Wednesday last has been supplemented by much heavier falls on Saturday and Sunday. The streets are piled with snow, and the car track sweepers and snow plows have been kept going constantly in order to allow traffic. The chill which followed Wednesday's storm has been taken out of the air by the falling of the snow, and there is every prospect of soft weather. Such a heavy fall coming so late in the season will no doubt be followed by a quick thaw and heavy freshets.

The drawing room held by Their Excellencies on Saturday evening had as large an attendance as usual, but the ladies costumes were possibly not quite so elaborate as on some former occasions. Court trains were conspicious by their absence—by request.

Their Excellencies are a very well matched and good looking couple, rather under medium size, features and expression good. Lady Minto has black hair, bright complexion and if she were not Her Excellency would be called decidedly pretty.

Sir Wilfrid Laurier has been indisposed ever since the opening.

No indication has leaked out as to the policy of the government for the session. Certainly the speech from the throne could not be held to be such an indication. The notices of motion already placed on the order paper are, however, some indication of what the country has been suggesting to the members.

The coal oil duties come in for attention on both sides of the house. Moore, conservative, of Stanstead, Quebec, gives notice of motion to reduce the duty, and to allow free distribution in tanks on cars or wagons. Davis, liberal, of Saskatchewan, goes him one better by giving notice to place coal oil on the free list.

Maxwell, Vancouver, who has been accused of impropriety in connection with the lease of Deadman's Island near that city to a Saw Mill Co., asks for the production of all papers in connection with the transaction; which seems to be a fair way of meeting criticism.

McInnis, Vancouver Island, gives notice of a bill to place certain restrictions on immigration, and Maxwell, Vancouver city, gives notice of amendment to the Chinese immigration act. Both members are probably moving along similar lines.

Fortin gives notice of a bill respecting insolvency.

Hughes, Victoria, moved to allow Britain to enroll a Canadian brigade in the Imperial army.

SASKATCHEWAN GOLD DREDGING.

The coming season will see more active gold dredging operations on the river here than any previous year in the history of gold washing on the North Saskatchewan. In all some nine companies operating at least fifteen dredges, will work their leases extending above and below the town for many miles. A number of these companies are backed by English capitalists, and if their experimental operations are as successful as their promoters are confident they will be, unlimited capital will be invested in the projects.

The following concerns will commence operations as soon as the river opens and the frost leaves the ground:

The Star Mining Company, of South Edmonton. Capital $25,000. This company operates a dredge with a capacity of from 60 to 100 cubic yards per day, and holds two bench and bar claims at Big Island, one 1200x1000 and the other 800x1000 feet. Only one of these claims has been worked. The company has been operating for the past two years with sufficient success to enable them to declare two dividends, the first year 10 per cent and the second year 15 per cent, after paying all expenses. The gold catching and saving appliances of this company are similar to those in use by other companies working on the river here, and their more successful results are due to the fact that after testing their ground they worked it steadily, not moving from one spot to another and working intermittently only, as other dredge owners did.

The Loveland Co., another dipper dredge, with five times the capacity of the Star's, is on the bank ready to resume operations. They control a bench and bar claim. This dredge was very satisfactory for the few months test it had before the river closed last season. Its digging apparatus worked well, but its weak spot, as with the other dredges then working, was in its saving appliances to catch the flour gold.

The Jubilee dredge (owned by Smith-Bowers and three others) also on the dipper plan, worked intermittently last summer on Omand's bar. It is reported to have earned working expenses while it worked.

Dr. Braithwaite's double scoop dredge, which worked on Cowie's lease last summer, where it made wages, is also ready to resume operations in the spring.

Brindley and Dr. Kelly's dipper dredge is laid up on the river bank above the town, and will be available for the coming summer's work. This dredge is of the same type as the Star company's.

The largest and most pretentious project is that of the Saskatchewan Gold & Platinum Propriatory, Ltd., of London, Eng., A. E. Hogue, manager, whose dredge, the "Otter," now lies just above the town. Mr. Hogue's company has a lease of 120 miles of the Saskatchewan river, including 60 miles of the original Drolet concessions, and their dredge is by long odds the most extensive and expensive ever put on the river here. It has a capacity of handling 2000 to 3000 cubic yards every 24 hours and is built on the ladder principle, largely used in New Zealand. It is fitted with new gold saving appliances designed by Mr. Hogue and consisting of a jig and catch-all tank, and Frue vanners. This company has been formed for the purpose of prospecting and demonstrating the value of the ground with the intention of forming a larger company or companies should the result of their experiments prove satisfactory. No test has yet been made as the machine was completed too late to do anything but test the digging apparatus, which was found to work highly satisfactorily.

Another extensive company is the Edmonton Gold & Platinum Syndicate, London, Eng., lately organized and capitalized for £50,000, of which over £15,000 has already been subscribed. The chairman is Lord Bateman and managing director, C. D. Brindley. The advisory board in Canada consists of Isaac Cowie and W. H. Sheppard, of Edmonton and South Edmonton, respectively. This company controls leases of 10 miles on the Saskatchewan and 70 miles on the Athabasca and will put on three dredges this summer, each with a capacity of 2000 cubic yards per day.

Among the largest of the newly formed syndicates which represent the investment of British capital is the Victoria Alberta Gold Dredging Co., Ltd., of London, now being promoted by Mr. Anthony Raymond with a capital of £100,000 of which £25,000 has been devoted immediately to the purchase of machinery, and expenses. The manager in Canada is Isaac Cowie. This company has a 30 mile lease on the North Saskatchewan on which they will place during the present season two large dredges of the latest New Zealand pattern, with a capacity of at least 2000 cubic yards per day. They will also have a steam tug or tender plying on the river here.

Messrs. Stubbs & Lewis, of Omaha, have a bench and bar claim on Big Island and a five mile lease on Point Lapis, five miles above Fort Saskatchewan. They claim to save the gold by a chemical process of their own, technically known as leeching the gold out of the concentrate. They are also thinking of using a sand pump instead of a dredge for raising the gravel. They have a dredge now working successfully at some point in the United States.

A company is also being promoted in England to work leases on the Peace river.

WINTER IN THE YUKON.

The Klondike Nugget, Dawson, of the 15th January says:

"The terrors of an Arctic winter disappear very largely when a person is brought actually into contact with them. The popular impression of a Dawson winter on the outside is most cheerless and unpleasant, but the actual winter itself is something that might easily be far worse. While there have been short periods during which an intense cold might be said to prevail, for the most part the winter has been exceptionally mild. Many people from the Northern States and from the lower Canadian provinces have remarked the fact that they have often seen more suffering from the cold in their former places of residence than has been the case here. One reason for this is the fact that in this country people anticipating a season of intense cold provide themselves with clothing suitable for the occasion. But more than that must be considered the fact that the climate itself is anything but the bug bear which it is ordinarily reputed to be on the outside."

W. C. T. U. MEETING.

A public meeting, under the auspices of the W. C. T. U., was held in the Methodist church, on Monday evening, March 20th, the anniversary of Neil Dew's birthday. The chair was ably filled by Mrs. Thos. Bellamy, president of the local union.

Very interesting and instructive papers were read by Mrs. Bellamy, Mrs. C. B. Freeman, and Mrs. Musson; vocal solos were rendered by Mrs. Hockley, and Miss Clara Lauder; glees by Mrs. T. Ferrier, Miss Davieson, Messrs. Heathcote and Goodwin; instrumental music by Miss Richardson; and a recitation by Miss Eva Ostrander, combined to form a very entertaining programme. At the close a collection was taken, proceeds to be devoted to the purchase of temperance literature for free distribution.

BLACK SAND IN YUKON.

Commercial: The discovery of the presence of platinum and gold in the black sand found at the confluence of the Hootalinqua and Lewis rivers is very important and valuable, since it opens up a new mining industry. Black sand is found pretty much in all these rivers and has hitherto been considered of no value. The sand has been assayed and found to consist of about 75 per cent of iron and 25 per cent of copper, tin, silver, gold and platinum. The assay showed that each ton of this black sand held about $800 in platinum and over $200 in gold. One thousand dollars to the ton of what has thus far been considered useless is a surprise, even to the Yukon mineralogists of several years' experience. This black sand is bulked with a large proportion of gravel. But the assay shows that it will be well worth working. The industry is as yet quite undeveloped.

PROBABLY MARVIN McNEELEY.

The Montreal Witness, of March 18th, mentions that a letter from Andrew T. Ball, son of T. R. Ball, of Woodstock, has been received by his father, dated from Devil's Portage, Liard river, on Nov. 5th, in which is detailed the finding of the dead body of a man in October last by E. T. Cole and party of Pelican Rapids, Minnesota. The body was found about twelve miles below the Devil's Portage, in a tent. With the body were a knife, compass, Martin-Henri rifle, twenty-five rounds of cartridges, twenty pounds of flour, some meat, matches and wood. A diary was found which contained the following entries:

"Dec. 28, '97. My partner deserted me and tried to cripple me further by taking my grub."

"Jan. 5, '98. Walked eight miles on my awful foot and am crippled on an Island alone. The pain in my foot is terrible."

A scrap of paper in one of the man's pockets had the following address written upon it: "Isaac Scott, Box 52, Sault Ste Marie, Ont."

Another entry in the diary was: "Graham was almost drowned. The tracking line broke." The body was buried by Mr. Cole and party, who took charge of the belongings. From the date of the entries in the diary, the mention of his lame foot, desertion by his partner, and the mention of Graham's name, there is practically no doubt that the body was that of Martin McNeeley, of Sault Ste Marie, Michigan, who came to Edmonton with George Balaam, and went north with W. Shreeves and W. J. Graham. Balaam was drowned in the Pelly river in the spring of '98. Graham and Shreeves reached Dawson safely. It was known that McNeeley was lame and was left behind by the others somewhere near the Devil's Portage in the early part of the winter of '97-8, and had not been seen alive afterwards. There is very little doubt therefore that this was the body reported to have been found by Mr. Cole.

ANGUS RIDGE.

The sacrament of the Lord's supper was dispensed here a week ago last Sabbath, by Rev. White, of Lacombe. He preached an able sermon. Mr. White could fill any city pulpit with credit. There was a good attendance. One united for the first time and one by certificate. Mr. and Mrs. Angus, senior, and family, who are leaving for Ontario, were taken by surprise on Friday evening last to see so many of their friends present to bid them farewell. At the beginning of the programme Mr. McVicar was called to the chair in place of Mr. Shantz, who was unavoidably absent. The following contributed to the evening's entertainment: Music, Mrs. McEachren, Mrs. Abbott, Miss Waterston, Miss Abbott, and Messrs. Angus, Shantz, Waterston, Abbott, Rix, and Wilson. This was Mrs. McEachern's first appearance as a musician in public, as she has only been living here a short time. She was well received. Recitation, Miss Tena Wilson, and Messrs. W. Wilson and Bob. Waterston. Miss Wilson acquitted herself with credit. The following gave brief, but able addresses: Messrs. Shantz, Wilson and Ed. Wilson. Last, but not least, the following gave very interesting readings: Miss Tena Wilson, and Messrs. Will Shantz, Will Waterston, F. Wilson and W. Wilson. Mr. and Mrs. Angus were presented with a testimonial, in which Mr. and Mrs. Wilson took part. All expressed the regret that Mr. and Mrs. Angus and family are leaving for Ontario, but wished them success in their new homes. "God be with you till we meet again," was sung as the closing piece, and their many friends bid them good-bye before the company broke up.

CLOTHING.

In three years this department with us has developed from the smallest to one of the largest in Northern Alberta, which proves that our goods and prices must be right. This season we are making a specialty of Children's and Boys' Suits, as well as showing the latest styles and patterns in Men's and Youth's Clothing. We can fit any size from a "two-year-old" to the stoutest man in the country.

We will duplicate eastern prices, on any suit, with express charges added. Bring along your catalogues and compare prices.

In proof of this, we can sell you Boys' odd short pants for 25c. a pair, and a special line of Men's Tweed Pants for $1.00 a pair. Mail orders promptly attended to.

HATS and CAPS.

Our spring stock has arrived, comprising the very latest in all the leading shapes and colors. The stock is all fresh and new, therefore you can rely on getting the very newest things in the market as we have no old lines to clear off.

Our prices are as low for new goods as some people charge for old lines. We can give you a nice black Fedora with a fancy band for $1.00, and a good Fur Felt Hat in all shapes for $1.50. Come and see our goods if you want something up-to-date.

Our Furnishing Department is complete in all particulars and is recognized as the leading one in the north.

Enough said.

LOCAL.

REV. A. J. VINING, of Winnipeg, conducted service in the Baptist church last night.

GEO. SURPLICE and Montgomery Surplice and wife, new settlers from Ladington, Mich., came in on Friday.

THE production of "Our Regiment" by local amateurs takes place on the 3rd and 4th in Robertson hall here.

W. C. GILLIS has been appointed telegraph operator at Edmonton in the place of Geo. A. Voyer, who is being transferred.

INSP. SNYDER and C. do W. Macdonald went to Wetaskawin on Saturday in connection with a criminal investigation there. They return to-night.

FUR sales on Friday were: McDougall & Secord from a Half-breed trader, $50 60; and W. S. Stennett, agent for Hershovits & Roth, from Brewster, of Ft. Assiniboine, $99 99; J. Feloy, of Swan Hills, to W. S. Stennett for Hershovits & Roth, $51.25.

EVERYTHING points to a long session of the present sitting of the Dominion house and if the inquiries of the various departments by the opposition may be taken as an indication of the fight that is pending the session will be a hot one. Already there are forty questions on the order paper.

THE Guelph Herald, of a recent issue, says: An enthusiastic emigrant agent for the Alberta district in the Northwest, is Dr. Whitelaw, formerly of this city. His letter appearing in another column will be read with very great interest, not only by his friends of the doctor, but by many who are always hungry for further knowledge about the great and undeveloped western country.

A DESPATCH from the coast, the home of sensationalism, says: "The steamer Danube, from the north, on the 21st, brought news of an alleged discovery of a Russian boundary mound about a hundred miles east of Dawson. The discovery was reported by three Russian Finns and Commissioner Ogilvie and Consul McCook have sent a commission to investigate. There is great excitement at Dawson over the belief that the find means that Dawson would be declared in United States territory."

R. W. ARMSTRONG is going extensively into the raising of thoroughbred poultry here. He now has in operation an incubator with a capacity of 200 eggs and will repeat the settings five times during the summer or until he has some 1,000 eggs hatched. Mr. Armstrong is procuring settings of 10 different varieties of thoroughbred fowls from Freeport, Ill., and counts on being able soon to supply the local demand for both poultry and eggs.

THE miners on the Peilly are suffering from an epidemic of scurvy, according to Cel. Evans, commanding the British forces on the Yukon, who has organized an expedition for their relief. A number of deaths have resulted. A subscription was taken up among the miners at Selkirk and a quantity of provisions and medicine gathered together. This was turned over to sergeant Foster, who headed a party up the river to the assistance of the unfortunates. He was to report actual conditions on his return, and if necessary a force will bring down the men most in danger.

DEATH OF MRS. CARTIER.

MRS. Cartier (nee Marie Louise Perras), wife of L. J. Cartier, teller of La Banque Jacques Cartier here, died at the hospital yesterday. The deceased was a bride of a little over a year and her death was unexpected. The funeral takes place to-morrow at 8 o'clock.

NORTHWEST RANGERS.

EDITOR BULLETIN.

I observe in last week's BULLETIN that it is the intention of the Dominion government to increase the strength of the Northwest mounted police to 1000 men.

In regard to this proposition would you allow me to suggest the advisability of the government leaving the strength of the police as it now stands, and instead of grant the Northwest government $200,000 per annum and let them assist to police the country. By doing so an immense deal of red tape could be done away with and there would not be so many salaried officers and their servants to maintain. Instead the Northwest government would be in a position to supply 200 efficient police constables experienced men, all fit and ready for duty, acquainted with the country, the people and their habits. There would be few sentinels, no flunkeys and every man "do his own washing"; a saving made of thousands of dollars and a more efficient force maintained. As for the material to recruit a force of this nature, the Northwest Territory could supply than, and a quality that could not be surpassed. Endeavor to establish a force which would be hard to get into and easy to get out of. Make the position of a police constable both lucrative, enviable and honorable. Copy the mounted police system of Australia as we have copied their ballot system—and name them the Northwest rangers.

OLD POLICEMAN.

A FRIGHTFUL ACCIDENT.

Wm. Hodgins and son, who arrived here from Renfrew, Ont., on the 17th, were so seriously injured on Saturday afternoon by the kicks of one of their horses that the life of one is despaired of and the other seriously, though not dangerously, injured. Mr. Hodgins and his son who is 19 years of age, were putting the horse in the stable and the younger man was about to tie him up when the animal kicked out viciously, the shod hoof striking him in the face, breaking his nose and cutting his face terribly. The older man, on seeing his son's position, sprang forward to drag him out when the horse kicked again with two feet. This time the blows struck on the left arm and hip with force enough to break them both. The two injured men were eventually rescued by neighbors who were attracted by the noise.

Mr. Hodgins, who is 74 years of age, came west with his family for the purpose of buying land and making his home here.

MRS. W. J. Hunter and Mrs E. Acton, of Edmonton, are daughters of Mr. Hodgins, sr.

The breaking up of the roads in town is making deliveries of all farm produce light. The season of sleighing in town is practically over, as the main street is drying rapidly up.

PROPOSED YUKON RAILWAY.

A Golden, B. C., exchange says that Mr. Watson, engineer for the Kootenay and Northwest railway company, otherwise known as "The Golden Era Air Line," arrived there last week with his engineering outfit. Mr. Watson is waiting instructions from his principals and is not prepared to give any definite information at present as to his operations. This is the railway which is projected from the American boundary to the Yukon, and behind which it is supposed the Great Northwest has some interest, with a view of opening up the great and rich tract of territory lying west of the Rocky Mountains, and included in the great basin of Eastern British Columbia. If this railway goes ahead, as is anticipated, it will be one of the most important railway enterprizes yet launched on the American continent, and its importance to Golden, Windermere, Tete Jaune Cache, and the Omenica and Pease river country cannot be over-rated.
